

Central Okanagan Public Schools

Together We Learn

WESTSIDE SECONDARY SCHOOL

Urgently needed • Awaiting Approval

Background

- West Kelowna continues to average 2% growth annually
- There is only one secondary school on the Westside for nine elementary schools and two middle schools
- Enrolment at Mount Boucherie Secondary (MBSS) is at 112% capacity, projected to increase to 137% by 2030
- MBSS uses eleven portables with permission from the City for only two more
- Expansion of MBSS is unfeasible, inefficient, costly, and disruptive to learning

Project Plan

New 1,100 student capacity secondary school at Webber Rd.

\$110M

Opportunities

- ✓ Create new spaces, suitable for 21st century learning
- ✓ Eliminate the need for portable classrooms at MBSS, return playfield space to the school
- ✓ Ability to create new childcare facilities for West Kelowna families and accommodate other community uses
- ✓ Provide learning spaces to all families on the rapidly-growing Westside
- ✓ Minimize capital costs and reduce maintenance, energy, and other operating costs
- ✓ A new school can achieve significant reductions in greenhouse gas energy emissions to reduce the effect on the environment
